---

## Personal Projects

---

### Node JS Project

- ❖ Developed **NodeJS** program that reads the Twitch and Streamlabs API to perform events on-screen during Twitch livestream. Viewers donate to interact with the stream through sound effects, scene changes, and Arduino creations.
- ❖ Twitch and Discord bots developed and managed in **JavaScript**

### React JS Project

- ❖ Developed album review website that takes a google spreadsheet created by my friends and I, and displays them on a website with album covers from a public album cover API
- ❖ This project was created uses **ReactJS** and **MaterialUI**

---

## Professional EXPERIENCE

---

### Amorino Gelato

*Supervisor*

**Fort Worth, TX**

July 2019—Present

- ❖ Prepared employee schedules bi-weekly, as well as evaluated employee performances
- ❖ Educated the staff on customer service, up-selling skills, and company systems
- ❖ Monitored inventory and documented supply count to ensure new products were ordered in a timely matter

---

## Volunteer EXPERIENCE

---

### Annual Soccer Camp for Underprivileged Kids

**Kuwait City, KW**

2013— 2018

- ❖ Organized and attended activities outside of the camp, as well as tournament matches
- ❖ Helped design and implement weekly schedules of training and activities
- ❖ Identified and responded to any behavioral issues

### Volunteer at Port St John Soccer Club

**Merritt Island, FL**

2017— 2018

- ❖ Organized and attended activities outside of the camp, as well as tournament matches
- ❖ Helped design and implement weekly schedules of training and activities
- ❖ Identified and responded to any behavioral issues

---

## SKILLS

---

❖ ReactJS      ❖ JavaScript      ❖ HTML/CSS      ❖ NodeJS

---

## EDUCATION

---

**University of Texas in Dallas**

Bachelor of Computer Science 2021

**Dallas, TX**
